

MAMASIGN

Japanese Recipient Email and Signing Language Guide

Step-by-step guide for sending a document to a Japanese recipient with a custom email subject, custom message, full recipient name, and Japanese recipient-facing system labels.

Screenshots captured from a MamaSign demo account

Use full recipient names, for example Yoshihiro Tsuchiya.

Write the email subject in Japanese if needed.

Write the message in Japanese if needed.

Set Advanced Options -> Recipient Language -> Japanese.

1. Open Sign Document

- Log in to MamaSign and open Sign Document from the left sidebar, or use the New Document button.
- This opens the document sending workflow where you upload the PDF, add recipients, write the email message, and choose recipient language.

2. Upload the PDF

- In Add Documents, drag the PDF into the upload box or click the upload area and select the PDF from your computer.
- Supported files include PDF, PNG, and JPG. For this guide, a sample PDF was uploaded from a demo account.

The screenshot shows the MamaSign web application interface. On the left is a dark sidebar with the 'MAMA SIGN' logo, language settings (English), and a user profile for 'Test's Workspace' (Owner). The sidebar menu includes 'Dashboard', 'E-SIGNATURE' (with a sub-item 'Sign Document'), 'Bulk Send', 'Contract Templates', 'Contract Forms', 'Signature Generator', 'Certificates', 'Forms', 'DOCUMENTS', 'PDF TOOLS', 'PROPOSALS', 'INVOICES', 'CUSTOM BRANDING', 'INTEGRATIONS', 'WORKSPACE', and 'AFFILIATE'. At the bottom of the sidebar are 'Help & Support' and 'Settings'.

The main content area is titled 'Upload a Document and Add Envelope Recipients' and has 'ADVANCED OPTIONS' and 'Next' buttons in the top right. It is divided into three sections:

- Add Documents:** Features a large dashed box with an upload icon and the text: 'Drag and drop your document here, or click to browse. PDF, PNG, JPG up to 25MB • Select multiple to create an envelope'.
- Add Recipients:** Includes a checkbox 'Include myself as signer'. Below it is a table with three columns: 'Name', 'Email', and 'Action'.

Name	Email	Action
Recipient name	email@example.com	Needs to Sign

A 'Customize' link is below the table, and a '+ Add Recipient' button is at the bottom of the section.
- Add a Message:** Contains two text input fields. The first is 'Email Subject' (0/100) with the placeholder 'Please sign this document'. The second is 'Email Message' (0/10000) with the placeholder 'Please review and sign this document at your earliest convenience.'.

A 'Next' button is located at the bottom right of the main content area.

3. Confirm the Document Name

- After upload, MamaSign shows the document thumbnail and document name.
- You can edit the document name here. This name is also used in email subjects if you do not write a custom subject.

The screenshot displays the MamaSign web interface for uploading a document and adding recipients. On the left is a dark sidebar with the 'MAMA SIGN' logo, language settings (English), and a user profile for 'Test's Workspace' (Owner). The sidebar menu includes options like Dashboard, Sign Document, Bulk Send, Contract Templates, and Documents. The main content area is titled 'Upload a Document and Add Envelope Recipients' and features 'ADVANCED OPTIONS' and 'Next' buttons. It is divided into three sections: 'Add Documents' with a document name input field containing 'sample-agreement' and a document thumbnail; 'Add Recipients' with a checkbox for 'Include myself as signer' and a table for adding recipients with columns for Name, Email, and Action; and 'Add a Message' with an 'Email Subject' input field. A 'Next' button is located at the bottom right.

4. Add Recipient, Email Subject, and Email Message

- Enter the recipient full name and email address.
- Use Action = Needs to Sign when the person must sign the document.
- Email Subject changes the subject line the recipient sees in their inbox.
- Email Message adds your personal message inside the signing email. You can write this in Japanese.

Example subject: 署名依頼: Service Agreement. **Example message:** 内容をご確認のうえ、ご署名ください。

Signer Verification

Choose how recipients verify their identity before accessing the document.

☒ None — Email link only
Recipient opens the document directly from their email link.

☐ Access Code — You set a code
Recipient must enter a code you define before accessing the document.

Next

5. Open Advanced Options and Choose Japanese

- Click Advanced Options in the top-right area of the workflow.
- Scroll to Recipient Language and choose Japanese.
- Click Save. This controls the recipient-facing signing email labels and recipient signing screen language.

This is the required setting for Japanese recipients. It translates system labels such as Signature Requested, Document, Sent by, Status, Review and Sign, and recipient field actions.

6. Place Signature Fields

- Click Next to open the field placement screen.
- Drag fields from the left panel onto the document. Common fields are Signature, Date Signed, Name, First Name, Last Name, Email, Text, Checkbox, and Custom Field.
- The selected recipient is shown at the top. Place fields while that recipient is selected.

The screenshot displays the MamaSign web application interface. On the left is a dark sidebar with a menu for 'Test's Workspace' (Owner). The menu includes: Dashboard, E-SIGNATURE (highlighted), Sign Document, Bulk Send, Contract Templates, Contract Forms, Signature Generator, Certificates, Forms, DOCUMENTS, PDF TOOLS, PROPOSALS, INVOICES, CUSTOM BRANDING, INTEGRATIONS, WORKSPACE, and AFFILIATE. At the bottom of the sidebar are links for Help & Support and Settings.

The main workspace is titled 'Complete with MamaSign sample-agreement'. At the top, it shows the recipient 'Yoshihiro Tsuchiya' and a search bar 'Scan Image-only PDF'. Action buttons at the top right include Save, Share, Preview, Download, Send, and Schedule. Below the recipient name is a search bar 'Search fields...'. The fields are categorized into: STANDARD FIELDS (Signature, Initial, Stamp, Date Sign...), CONTACT FIELDS (Name, First Name, Last Name, Email Add..., Company, Title), and OTHER FIELDS (Text, Checkbox, Attachment, Dropdown, Radio, Drawing, Formula, Note, Approve, Decline, Line, Custom Fl...). The document preview on the right shows 'Page 1' of an 'Enterprise Software License Agreement'. The document text includes: 'This Enterprise Software License Agreement is entered into by and between Acme Corporation and the undersigned party.', '1. GRANT OF LICENSE', '2. TERM AND PAYMENT', and '3. AUTHORIZED SIGNATORY'. At the bottom left of the workspace is a 'Back' button, and at the bottom right is a 'Send' button.

7. Review Fields and Send

- Confirm the fields are on the correct page and assigned to the correct recipient.
- Click Send only when the document, recipient, subject/message, and Advanced Options are correct.
- After sending, Japanese recipients will receive Japanese system email text and see recipient-side field actions in Japanese.

The screenshot displays the MamaSign interface for reviewing and sending a document. The sidebar on the left shows the user is in 'Test's Workspace' and lists various tools like 'Sign Document', 'Bulk Send', and 'Contract Templates'. The main area shows a document titled 'Enterprise Software License Agreement' with three sections: '1. GRANT OF LICENSE', '2. TERM AND PAYMENT', and '3. AUTHORIZED SIGNATORY'. The right-hand panel is titled 'Date Signed' and includes fields for 'Recipient' (Yoshihiro Tsuchiya), 'Required' (checked), and 'Auto-fill on signing date' (checked). It also has sections for 'FORMATTING', 'DATA LABEL', 'TOOLTIP', 'SIZE', and 'LOCATION'. At the bottom right, there are 'Duplicate' and 'Delete' buttons, and a large 'Send' button.

Quick Final Check

Before clicking Send, confirm these settings:

Recipient name and email are correct.

Email Subject is written exactly as you want the inbox subject to appear.

Email Message contains the Japanese note you want the recipient to read.

Advanced Options -> Recipient Language is set to Japanese.

Signature/date/text fields are placed and assigned to the right recipient.

Click Send only after all settings are confirmed.
